ANDREA PIANO

FRONT-END DEVELOPER

Cagliari, Italy

ABOUT ME

A passionate **Front-end Developer** who knows how to translate learning and training into valuable contributions within an innovative team. I am able to do this through my ambition for better results; by continually developing my skills as new programming technologies change and develop in the industry. Keeping up to date is a priority, which is why I have completed six essential programming courses so far. My expertise has expanded over this time from my initial diploma in programming; **Python** → **HTML/CSS** → **JavaScript** → **VueJS** → **ReactJS** → **TypeScript** → **NextJS**.

At the moment, I'm at the end of my internship as a **React Developer** at **Softfobia**, whilst looking for a full-time job in the Netherlands. I aim to relocate there this year.
